# Twenty-Third Annual **PRICE LIST**

—OF THE—

G. B. CUTLER SEED CO.

Marshall, Minn.

---

March 1st, 1941

In presenting you this 1941 Price List, we wish to thank all our friends and customers for their past patronage.

Our old customers are well acquainted with our ways of doing business, and you should ask the old if in doubt as to our square dealings.

**No Warranty.**—We exercise extreme care in the filling of all orders, but we give no warranty, expressed or implied, as to the quality, description or productiveness, or any other matter of any seeds we send out, and will in no way be responsible for the crop.

**Prices Subject to Change.**—The prices quoted herein are based on market conditions at the time this list is issued and are subject to change without notice. We do not alter prices except in extreme cases, but if your list is an old one and you have occasions to presume that prices are either higher or lower, **just write** us for current list before ordering and we will supply one at once.

**Orders Promptly Filled.**—In case of delay you will be notified by letter explaining the cause of such delay and advised when shipment will be made. If you do not hear from an order sent us within a reasonable length of time, send us a duplicate, stating amount of remittance, and be sure to give your name and full address.

**Terms of Sale**—Cash must accompany orders and should be in the form of Money Order or Bank Draft, Currency or Registered Mail, or Bank Check.

G. B. CUTLER SEED CO.

This picture will give you an idea of the size of the Giant Redwood trees, being a stump of one, with our car standing inside.

---

## A Few Words From George

Another twelve months have passed and time once again to let our minds drift to the best place to buy dependable seeds for less money. With the issue of this yearly catalog it makes the twenty-third year we have endeavored to please our old customers and by their words of satisfaction, we have gained many new customers each year.

Very sorry I was sick last spring and unable to be on the job for ten days, therefore missed seeing many of my old standbys, undoubtedly some have returned year after year for as long as I have put out these books. Perhaps no one missed me like the girl who met her friend and said, "Oh! Mae, I am sorry;—I quite

forgot your party the other evening!" Mae replied: "Oh, weren't you there?"

As it has been customary in the past for me to tell something of what I do and where I go when the seed season is over in July. Last summer my wife, I and our little dog, Julius, traveled over 5,000 miles.

We left Marshall on a Thursday morning, the last week of July, for Pocatello, Idaho, to visit at our daughters and son-in-law's, and, of course, to see our only grandchild. After spending a while there, they joined us and we left on a Sunday for the west coast. We traveled through the largest irrigated tract in the world near Twin Falls, Idaho. From there we drove to Boise, then on into Oregon, seeing nothing but sage brush from the time we entered Oregon until we reached Lakeview, a distance of 300 miles.

From there we drove through large timber until we reached the coast. We stopped at a logging camp and watched the logs being loaded onto flat cars. There were many, many large lumber mills along the highway.

By the time we reached the coast we started to see many of the Giant Redwoods. The Redwood trees are very tall and straight, some of them reach more than 300 feet into the air. The largest ones are fourteen feet through and over 500 years old.

Our first view of the coast was at Crescent City, California. We failed to see sunny California which we had heard so much about. It was foggy and cold during our time there. During the entire drive of about 75 miles into California we drove through the Redwood Forest. Visited several aquariums and museums. One aquarium was especially interesting, inasmuch as it represented the bottom of the ocean. There were several octopus and many ugly, horny-looking fish that I wouldn't care to meet only in an aquarium.

While walking along the beach we picked starfish off the rocks.

Following the Oregon coast for several hundred miles, we twined inland, stopping at Salem to spend one night, from there we drove to Portland, Oregon, where we went through the old battleship Oregon. From Portland we drove over the beautiful Columbia highway. The Columbia river separates the states of Washington and Oregon. One night was spent at Pendleton, where the largest round-ups in the world are held. The next morning on our return trip to Pocatello by way of Boise, all saying we had spent one enjoyable week.

After spending another week in Pocatello we started on our return trip back to Minnesota, by way of Casper, Wyoming, through the oil fields, continuing on through the Black Hills and Bad Lands of South Dakota, and arriving in Marshall all fine after a most delightful trip.

That gives you all a fair account of my summer of 1940. Now we are ready to start our spring rush of 1941. We are in the same place, selling the same high quality seeds at the lowest possible prices.

We're not like the solicitors selling Hybrid seed corn, bothering the farmers the year around, like the census taker calling on a lady asking, "How many are there in your family?" "Five," snapped the woman, "me, the old man, the baby, the cow and cat." "What politics?" asked the man. "Mixed," replied the woman, "I'm Republican, the old man's a Democrat, the cow's dry, the baby's wet, and the cat's a Populist."

I guess I have told you enough, so I'll look forward to seeing you all this Spring.

GEORGE

## **ALFALFA**

Our seed all comes to us in sealed and branded bags, and is of the 1st grade. You have likely been hearing over the radio about the cheap seed you can buy. If you have, send for sample and see then if you want the grade of seed advertised.

### **Northern Grown Alfalfa**

This does not need any explanation as everybody knows how good it is and every farm should have a few acres.

Do not buy Alfalfa seed that is offered cheap as it may be southern grown seed which is always cheaper than northern grown seed. The southern grown alfalfa, grown from this seed will not stand our cold winters.

This year the Minnesota law says that no Grimm's Alfalfa can be sold without a state seal so do not be misled by buying cheaper seed from some other state that does not have

that law. Our seed is the blue tag or the best grade, put up in towel bags 30 and 60 pounds each and the price for that kind of Grimm's Alfalfa is per lb. -----30c

Our Cossack Alfalfa, as perhaps you all know, is a hardy plant, as much so as Grimm's, but makes a finer grade of hay.

Our price is per lb. -----28c

The Dakota 12 is nothing new, we all know about that.

Our price is per pound -----25c  
Minnesota grown

## Nitragin

Inoculate your alfalfa and clover with Nitragin for best results.

1/2 bushel size can -----30c

1 bushel size can -----50c

---

## SWEET CLOVER SCARIFIER

Having just installed a new modern Scarifier we are able to do you a bet-

ter job and in less time than before. Bring in your Sweet Clover—have it scarified and cleaned. Our price is 80c per cwt.

---

## **Permanent Pasture Mixture**

We can furnish you a mixture to suit all purposes at a very reasonable price. We cannot quote prices as we do not know just what mixture you need. Call and we will figure with you.

## **Lawn Grass**

A mixture of grass seeds for any kind of lawns. Consists of: White Clover, Blue Grass, Red Top, Rye Grass.

Price per lb. . . . . 35c

## **Medium Red Clover**

This seed is grown in Minnesota, cleaned in fine shape and is the best grade to be had.

Price per lb. . . . . 18c

## Sweet Clover

All of this seed is scarified

White Blossom—

1st Grade, per lb. -----5½c

2nd Grade, per lb -----5c

3rd Grade, per lb. -----

Yellow Blossom -----5½c

Grundy Co. or Dwarf -----6c

## Alsike

This is by all means the best clover for a low land pasture.

Price per lb. ....18c

## Milletts

Hungarian, Per cwt. ----

Siberian, Per cwt. ----

German, Per cwt. ----

Japanese, Per cwt. ----

Proso or Hog, Per cwt. --

} ASK  
FOR  
PRICES!

## White Dutch Clover

This is the kind to sow on your lawn. Also good in a pasture mixture.

Per lb. ....85c

## Grass Seeds

Timothy, price per pound	-----7c
Timothy and Alsike Clover mixed 20 per cent Alsike, 80 per cent Timothy, price per lb.	-----11c
Red Top, price per pound	-----16c
Blue Grass, price per pound	----28c
Bromus, price per pound	-----20c
Reeds Canary Grass, per lb.	----22c
Rye Grass, per lb.	-----10c
Crested Wheat Grass	-----18c

## Dwarf Essex Rape

This seed is grown in Holland and sure is the quickest pasture for cattle, hogs and sheep when sown in spring. For fall pasture nothing gives more cheap feed than Rape sown in small grain. Price per cwt. ----\$16.00

## Sudan Grass

A great one year hay and pasture grass; can be cut for hay two or three times a season, a little coarse, but very good feed. Price per cwt. \_\$5.50

Home Grown ----- \$4.50

## Amber Cane

One of the greatest fodders—if mixed with corn. Price per cwt. \$4.00

## Kaffir Corn

If cut green makes fine fodder. If allowed to ripen, is one of the best feeds for chickens. Per cwt. --\$4.50

## Grahoma

A real feed. Per cwt. -----\$4.50

## Hegari Cane

Similar to Cane. Per cwt. ----\$4.50

## Atlas Sorgo.

A Sweet Fodder, per cwt. ----\$4.50

## Orange Cane

A dwarf for fodder, per cwt. --\$4.50

## Soy Beans

Manchu, per cwt. -----\$4.00

---

BEMIS "A" GRAIN BAGS, Each 35c

**Jacques  
(Jakes)  
Hybrid  
Seed  
Corn**

Raised in Minnesota. We are now taking orders for Jacques 100, 105, 110 day corn which has proven to be one of the best for this territory. Price -----\$6.75

**Lyon Co. Grown Hybrid**

Minhybrid No. 403-301, 107-Day Corn

Flats -----	\$6.25
Medium Flats -----	\$4.75
Large Rounds -----	\$3.75

## Iowealth, King Of The Hybrids

Iowealth grown by the Michael Leonard Seed Co., is also a Minnesota grown Hybrid 105 day variety.

You can send in your order for this corn now to be delivered about April 15th. This will be held for you with \$1.00 per bushel down.

Flats -----\$7.25

## GARDEN SEEDS

Why pay two prices for your garden seed done up in packages with a pretty picture on it? If you do so—you have to pay for the picture extra

Our seeds are in plain packages with more seeds for less money. If you would like different varieties not listed below we can furnish same.

We pay postage on all garden seed. If you want package seeds will furnish them at 5 cents per package.

## Onion Sets

### Bermuda Onion Plants

Will have a good supply in season and will be able to sell them as cheap or cheaper than you can get them elsewhere.

## Frost Proof Cabbage Plants

In Season

50 Plants, postpaid	-----	30c
100 Plants, postpaid	-----	55c

## Tomato Plants

Large strong and healthy plants

1 Doz. Plants, postpaid	-----	15c
5 Doz. Plants, postpaid	-----	65c

These plants are all cheaper if you call for them here.

---

## FLOWER SEEDS

	Oz.	Lb.
Sweet Peas, mixed	----- .10	1.50
Nasturtiums, mixed dwarf	.10	1.50

Any other flower seeds that you may want will furnish at FIVE CENTS a package.

When you need seeds, remember that G. B. Cutler Seed Co. offers only the best in seeds. A trial order will convince you.

---

## Sweet Potato Plants

These were tried out here last year and some very nice sweet potatoes raised from them. Will have these plants here about May 15th and the price will be right.

(Not Treated)

(Treated)

## SEMESAN

Semesan Bel, for potatoes, 1 lb. \$1.40

Semesan Jr., for Corn, 1 lb. can. 75c

Ceresan, for Grain, 1 lb. can. 75c

5 lb. can. \$3.00

## HOT KAPS

For earlier crops use the Hot Kaps.

Price per doz. 20c

Large Lots Cheaper.

## HANDY TABLE FOR FIGURING NUMBER BUSHELS OF EAR CORN IN ROUND CRIB

44	248	310	372	434	496	558	620	681	743

## CROP INVENTORY HELPS

To find the number of bushels of grain or shelled corn in bin or box: Multiply length by width by depth in feet and multiply by 8 and leave off last right-hand figure, e. g., 100 cubic feet times .8 equals 80 bushels.

To find the number of bushels of ear corn in crib: Multiply length by width by average depth in feet to determine cubic feet. When sides of crib are flared add width at floor and width at top of corn and divide by 2 to find average width. To find cubic feet in round crib multiply distance around by average height by 2/25 of the distance around.

Ear corn will run from  $2\frac{1}{4}$  to  $2\frac{1}{2}$  cubic feet per bushel, depending upon the size and shape of the ears. Hence divide cubic feet by either  $2\frac{1}{4}$  or  $2\frac{1}{2}$ . If  $2\frac{1}{2}$  is to be used same result can be obtained by multiplying by 4 and leaving off the last figure to the right. The above table is figured basis  $2\frac{1}{2}$  cubic feet per bushel.

## Garden Seeders and Cultivators

These seeders are complete. They are a combination seeder and cultivator.

Price each .....\$15.00

## Cultivators

Single Wheel, Complete.

Price each .....\$6.50

## Clipper Cleaner

This year we are selling the Clipper Mills and as you all know this is the best mill for cleaning all kinds of grain and seed. Screens for all purposes.

They come complete with 12 screens and for motor or hand power.

No. 1 Clipper .....\$40.00

No. 2 Clipper .....\$45.00
